

After creating your User and Business Profile, enter the WPSC Docketing System website for new filings. Once your User and Business Profile is created you will not need to access the Online Services again unless you need to manage the Business Profile such as adding or deleting associated members for your company. Please retain this information for future reference.

- To access the WPSC Docketing system, navigate to the following link:
<http://dms.wyo.gov>
- Enter the same User ID and password that you created in the Online Services area.
-

- Enter your PIN number when requested. The PIN number will be provided to you by the Wyoming Public Service Commission IT Staff.
 - Your PIN number will only be required on the initial login unless you request your PIN number be changed. If you have staff changes, you might consider requesting a PIN number to be changed for your company.
