Notice of Integrated Resource Plan (IRP) Filing

Questar Gas Company's 2008-2009 Integrated Resource Plan (reference Docket No. 30010-92-GA-08) is available for review on the Commission's website at <http://psc.state.wy.us>.

An Integrated Resource Plan (IRP) is a recurring planning process undertaken by a public utility to identify the preferred mix of supply and demand-side resources that will meet projected customer demand, provide source reliability and resource diversity at the least possible cost.

Written comments regarding Questar's IRP filing may be filed with the Commission at WPSC, 2515 Warren Avenue, Suite 300, Cheyenne, WY 82002, or by filing electronically at dlucer@state.wy.us on or before **June 30, 2008**.

Please contact Dave Lucero at (307)777-7478 or Darrell Zlomke at (307)777-5724 for additional information.

Notice of Intent to Adopt Rules and Regulations

Docket No. 90000-103-XO-08 (Record No. 11691). Proposed revision of Chapter 2, Section 208, of the Commission's Procedural Rules and Special Regulations regarding certain *de minimus* transfers.

For additional information, contact Steve Mink, at (307) 777-5741

Chapter 2, Section 208 of the Wyoming Public Service Commission's Procedural Rules and Special Regulations is proposed to be amended to provide public utilities a simpler and more efficient way to consummate normal course of business *de minimis* transactions that have no material effect on either the public or the ability of the utility to provide safe, reliable and adequate service.

The adoption of this amended rule, Chapter 2, Section 208, allows certain narrow exceptions to the application requirements under the old rule. Currently, Section 208 requires a filing for authority in the case of all transactions, it has become apparent that this rule should be amended to allow certain narrow exceptions in order to assure compliance by utilities and to reduce the administrative burden of processing transactions that are, because of their nature and small size, not relevant or necessary. The amended Section 208 would allow utilities to consummate certain *de minimis* normal business transactions without prior Commission approval and would require a semi-annual report of such transactions. The proposed rule change meets minimum substantive state statutory requirements.

The Commission welcomes all comments and suggestions on this proposed amended rule and regulation. Written comments must be received by the Commission no later than **June 12, 2008**. Copies of the proposed rule and regulation are available in a format clearly indicating the alterations of the current rule at the Commission's offices in Cheyenne, upon written request, or by accessing the Commission's web site at http://psc.state.wy.us/hdocs/hottopics_new.htm.

A public hearing will not be held unless requested by 25 persons, a governmental subdivision or by an association having not less than 25 members. Requests for a public hearing may be addressed to Steve Mink, Assistant Secretary, 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming, 82002.

Any person may urge the Commission not to adopt the proposed amended rule and also request the Commission to state its reasons for overruling the consideration urged against the adoption of this new rule. Requests for a Commission response must be made prior to, or within thirty (30) days after adoption of the proposed new rule, addressed to Steve Mink, Assistant Secretary, 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming 82002.

If you wish to provide comments or suggestions and you require reasonable accommodation for a disability, please contact the Wyoming Public Service Commission at (307) 777-7427 (Voice or TTY) in Cheyenne during regular business hours or write to them at 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming 82002, to make arrangements. Communications impaired persons may contact the Commission by accessing Wyoming Relay (TTY) by dialing 711. Please mention Docket Number 90000-103-XO-08 in your communications.
