- Customer Service Update
- Wind Repowering Project
- Environmental Update
- Qualifying Facilities Status Update
- Qualifying Facilities and Effect on WY Generation
- Business Plan Overview
- Regulatory Update

All interested parties are welcome to participate.

This meeting will be held in the Commission hearing room located at 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming.

Commission contact: Chris Petrie, chris.petrie@wyo.gov or 307-777-5763.

WYOMING PUBLIC SERVICE COMMISSION

Notice of Commission Activity

Wednesday, March 22, 2017

1:30 p.m. to 3:30 p.m.

Real-time audio broadcast may be accessed through the Commission's website at <http://psc.state.wy.us>. To participate by telephone, call 1-877-735-7186 (No PIN required).

If participating by telephone, please refrain from using a speakerphone.

Undocketed. Commission Staff to host round table to discuss Pipeline and Hazardous Materials Safety Administration (PHMSA) Excess Flow Valve (EFV) rule, effective April 14, 2017.

PHMSA has summarized the revised final rule as follows:

Excess flow valves (EFV), which are safety devices installed on natural gas distribution pipelines to reduce the risk of accidents, are currently required for new or replaced gas service lines servicing single-family residences (SFR), as that phrase is defined in 49 CFR 192.383(a). This final rule makes changes to part 192 to expand this requirement to include new or replaced branched service lines servicing SFRs, multifamily residences, and small commercial entities consuming gas volumes not exceeding 1,000 Standard Cubic Feet per Hour (SCFH). PHMSA is also amending part 192 to require the use of either manual service line shut-off valves (e.g., curb valves) or EFVs, if appropriate, for new or replaced service lines with meter capacities exceeding 1,000 SCFH. Lastly, this final rule requires operators to notify customers of their right to request installation of an EFV on servicelines that are not being newly installed or replaced. PHMSA has left the question of who bears the cost of installing EFVs on service lines not being newly installed or replaced to the operator's rate-setter.

This event is intended to provide a forum for discussion of issues related to Wyoming natural gas distribution utilities' compliance obligations and any anticipated proceedings related to establishing tariffs, rules, or regulations necessary to assign the costs of customer-requested EFV installations.

All interested parties are welcome to participate.

This meeting will be held in the Commission hearing room located at 2515 Warren Avenue, Suite 300, Cheyenne, Wyoming.

Commission contact: Chris Petrie, chris.petrie@wyo.gov or 307-777-5763.

WYOMING PUBLIC SERVICE COMMISSION
