

PUBLIC NOTICE

The Wyoming Public Service Commission (Commission) has authorized Black Hills Energy (BHE or the Company) to pass on a gas supply charge increase of \$0.0752 per dekatherm (Dth) to its Small General Service (SGS) and Large General Service (LGS) customers, effective for usage on and after September 1, 2018. The proposed increase is attributable to a projected decrease in wholesale gas costs of \$0.2335 per Dth for the SGS and LGS customers. It also includes a decrease of \$0.3087 per Dth in the Commodity Balancing Account (CBA) surcharge credit for the SGS and LGS customers. The net effect of the two adjustments is an increase in the Gas Supply Charge of \$0.0752 per Dth for the SGS and LGS customers. The change will increase BHE's annual revenues by approximately \$32,175 during the period September 1, 2018, through August 31, 2019, and will be passed on to BHE's customers on a dollar-for-dollar basis. The approval granted herein is subject to notice, protest, investigation, opportunity for hearing, change, refund, and such other orders as the Commission may deem appropriate.

The average SGS customer using 119 Dths per year may expect an annual bill increase, before taxes, of approximately \$8.95 or 2%. Actual bills will vary with usage.

Commission Rule Chapter 3, Sections 26(a) and (b) allow a utility to pass on to its customers known or prospective wholesale commodity cost increases or decreases, subject to public notice, opportunity for hearing and refund.

BHE's Application is on file with the Commission and in BHE's offices in Cheyenne, and may be inspected by any interested person during regular business hours.
